INTRODUCTION

What is Safer Streets?

Safer Streets is a Home Office funded initiative to improve safety in public spaces and also to make people feel safer when they are out and about. It is particularly targeted at helping to reduce neighbourhood crime and antisocial behaviour and preventing violence against women and girls.

Police and Crime Commissioners work in partnership with local councils to bid for funding, which can be used on projects such as new CCTV cameras, street lighting, youth provision and home security devices. Broxtowe Borough Council will deliver the project in Beeston town centre with the support of the Safer Streets partnership.

What is the money being spent on?

The Office of the Police and Crime Commissioner for Nottinghamshire secured £333,000 of funding for projects across the South Nottinghamshire Community Safety Partnership area, with one third of this to be spent in the Broxtowe borough.

The partnership, which includes Nottinghamshire Police and Broxtowe Borough Council, identified Beeston town centre as the key location where the funding could be used to greatest effect to reduce antisocial behaviour, shop theft and cycle theft.

Broxtowe Borough Council will use the funding to replace 11 old CCTV cameras which are no longer fit-for-purpose with new state-of-the-art, 4G cameras with infra-red capability and 40 times optical zoom. It will also install two new refuge point cameras, an innovative technology which allows anyone in distress to push a button at the bottom of a CCTV camera pole and speak directly to CCTV control room operators to ask for help.

BEESTON TOWN CENTRE

Which locations will be targeted?

The cameras will be installed in the following areas:

The tram and bus interchange on Beeston High Road, Beeston Square, Humber Road, Broadgate Park, Regent Street, Derby Street (inc car park), Station Road (inc ARC Cinema), Commercial Avenue, Foster Avenue (inc car park), Styring Street, Chilwell Road, Devonshire Avenue Car Park, Villa Street and Acacia Walk (inc Tesco car park).

Eleven upgraded, state-of-the-art CCTV cameras.

Two new refuge point cameras with direct intercom access to the CCTV control room.
