Supplier Name(s)	Information By Design
Percentage Score	87%

Savings

Savings Achieved	£3866
-------------------------	-------

Savings have been calculated as a cost avoidance. The OPCC stated a budget of £40,000 per year as part of the tender process. The successful bidder has been able to submit costs that come in under budget for each contract year. The breakdown is as follows:

- Year 1: £37,606
- Year 2: £38,735
- Year 3: £39,897
- Year 4: £39,897

The contract annual costs include additional measures that are in place as a result of Covid19 measures. These costs will be reviewed annually and should safety measures be lowered or removed entirely, additional savings will be achieved.

Implementation and Contract Management

The Supplier will provide a named point of contact for the fieldwork whilst it is being carried out, in addition to a named contract manager for this service for the duration of the contract. Whilst the fieldwork is being completed, the OPCC requires a virtual weekly progress meeting. This meeting will provide updates on numbers of surveys achieved, issues, complaints, compliments and plans for the following week.

Upon completion of the fieldwork, a review meeting will be held to review the final data set, address any issues, risks and complaints and agree a plan for the next quarter. The OPCC may require ad-hoc meetings with the data analysis team to review data sets and discuss weightings and analysis.

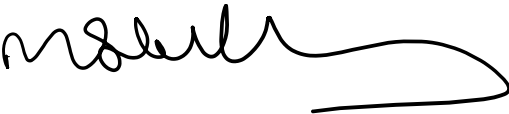

KPI's

The Supplier will be required to achieve and report on the below KPI's on a quarterly basis upon the completion of fieldwork for the reporting period.

Reference Number	KPI/Measure	Indicator
1	Achievement of quarterly target of a minimum of 1,065 surveys	100%
2	Completion of fieldwork within the required timescale	100%
3	Delivery of data reports on time	100%

Scheme of Delegation

Mark Kimberley – Chief Finance Officer
