In the light of continuing concern about traffic offences involving fatalities, despite the introduction of new offences in 2008, the review will analyse and assess the quality of police/CPS investigation and prosecution of such cases, and the progress made by the CPS following HMCPSP's 2008 review, establish good practice and make recommendations for positive change. Inspection in 2013/14.

### **CJJI Inspection: Integrated Offender Management (IOM)**

IOM provides an overarching framework for agencies to prioritise interventions with offenders of greatest concern in their locality. This inspection is intended to assist in assessing the impact of IOM and disseminating good practice.

### **HMCPSP Inspection: Statutory Charging**

The previous joint report in 2008 highlighted a number of concerns over the efficiency of the operation of the statutory charging scheme (whereby the CPS took over the responsibility from the police for determining whether an alleged offender should be charged in the more serious or contested cases, by virtue of the Criminal Justice Act 2003). With changes in the landscape implemented in 2010–11 and 2012–13, this follow-up was postponed to 2013-14.

**HMIC: Crime Data Integrity.** This inspection will examine the effectiveness of the police in dealing with reports of crime by members of the public. The scope is subject to development but is likely to build on the findings of HMIC's previous inspections in this area. Scoping work will include consultation with the Crime Statistics Advisory Committee.
