STRATEGIC PRIORITY THEME 1: Protect, support and respond to victims, witnesses and vulnerable people

Measure	Objective / Target	Performance	Insight	
1	Percentage of victims of crime that are completely, very or fairly satisfied with the service they have received from the police	90% of victims completely, very or fairly satisfied	85.4% ●	Performance has seen deterioration over the last year, and the most recent figure, covering satisfaction for incidents reported in the 12 months to April, contrasts with 87.1% for the same period last year. Vehicle crime, particularly theft from vehicle, continues to be the driving influence. There remains a significant difference between the divisions in terms of the headline figure (City 83.6%, County 86.7%), and vehicle crime satisfaction is the differentiating factor.
2	Percentage of victims and witnesses satisfied with the services provided in Court	An increase in the percentage of victims and witnesses satisfied compared to 2014-15	96.8% ●	<b>Current performance covers the year to March 2015.</b> Around 98% of victims and witnesses responding were satisfied or very satisfied with the services provided in Court in March. Figures for the 12 months to March show that more than nine in every ten respondents were satisfied in comparison with the 2013/14 level of 95.7% (April 2013 - March 2014).
3	Percentage of people who agree that the police and local councils are dealing with Anti-Social Behaviour and other crime issues	60% agreement by 2015-16	61.3% ●	<b>Current performance covers interviews in the year to December 2014.</b> The Force is 1.3 percentage-points above the 60 percent target. Performance has seen improvement over the last year with positive movement since the previous quarter.
4	Percentage reduction of people that been repeat victims within the previous 12 months	a) A reduction in the number of repeat victims of domestic violence compared to 2014-15	+21.6% ●	Numbers of repeat victims of domestic violence <b>increased by 117 offences</b> year-to-date, with a 25.2% <b>increase</b> in the County, and a 16.7% <b>increase</b> in the City.
		b) A reduction in the number of repeat victims of hate crime compared to 2014-15	+78.6% ●	There were 11 additional repeat hate crimes recorded year-to-date, 6 of which occurred in the City.
		c) To monitor repeat victims of ASB	-5.1%	Numbers of repeat victims of ASB appear to align with the overall decrease in reporting of ASB, and this is mirrored across the two divisions, with City recording a 2.8% increase and County 13.3% less.

STRATEGIC PRIORITY THEME 1: Protect, support and respond to victims, witnesses and vulnerable people				
Measure		Objective / Target	Performance	Insight
		d) To monitor the number of domestic abuse incidents and crimes and the proportion of which are repeats	+1.0%	Taken together, the numbers of domestic abuse incidents and crimes appear to have increased by 1.0% or 47 offences; however, due to a tagging issue with incidents this should be viewed with caution, as crimes are showing a 29.0% increase.
			38.9%	The proportion of domestic abuse incidents and crimes has reduced when compared to 40.6% in the previous year, although actual numbers have increased from 619 to 761 repeat offences. The proportion falls to 23.7% when incidents are removed, suggesting that the Force is dealing proactively prior to an incident becoming a crime.
5	Public confidence in reporting offences to the police	a) To monitor the number of sexual offences as a whole	+52.0%	There were 206 additional Sexual Offences recorded year-to-date and this has been attributed to better recording practices, increased numbers of historic sexual offences being reported, and direct recording of other agency referrals. Broken down there have been similar sized percentage increases in serious sexual offences (63.0%), with a 73.0% increase in rape and a 42.0% increase in other sexual offences (serious).
		b) To monitor satisfaction levels of victims of Domestic Abuse through the force victim surveys	90.4%	Results of the Domestic Abuse Victim Satisfaction Survey for incidents reported in the 12-months to the end of April 2015 demonstrate that around nine in every ten victims are satisfied with the whole experience (507 out of 561 respondents). Satisfaction with the whole experience remains broadly stable. For incidents reported in the 12-months to April 2014 the rate was 91.1% and the difference is not statistically significant.
		c) To monitor the number of Hate Crimes and the proportion of which are repeats	+49.0%	There were 97 additional hate crimes recorded year-to-date, with a relatively even split between Public Order offences (138 offences ytd) and Victim-Based offences (156 offences ytd) across the two divisions (City 136 offences ytd; County 158 offences ytd).
			9.3%	The proportion of Hate Crimes which are repeats fell slightly from 9.5% last year to 9.3% this year. 8.0% of Hate Crimes in the City were repeats,

				whilst only 10.9% were repeats in the County.

STRATEGIC PRIORITY THEME 1: Protect, support and respond to victims, witnesses and vulnerable people					
Measure	Objective / Target	Performance		Insight	
6	The number of people Killed or Seriously Injured (KSIs) on Nottinghamshire's roads	a) 40% reduction in all KSI RTCs by 2020 (from 2005-09 average)	-50.4%	●	<p>Figures for January to March 2015 show a 15.5% reduction in KSI casualties compared to the same period in the previous year, this equates to 15 less casualties contributing considerably to the overall reduction of 50.4% against the 2005-09 average. The total number of collisions reported is down 14.8% which over 100 fewer accidents have been attended. Vulnerable road user groups are showing good reductions with the exception of pedal cycle KSI's, which although up 22% only reflects a rise of 2 and slight injuries fell by over 37%. Motorcyclists showed a reduction of 56%.</p> <p>Provisional figures for April to June 2015 compared to 2014 continue this encouraging trend. Serious injury collisions for 2015 are 161 compared to 192 for 2014. Slight injury collisions are 1,323 for 2015 compared to 1,406 in 2014. This shows that quarter two figures for 2015 are positive especially for May and June which is encouraging as that marks the start of Operation Drosometer 5 – Nottinghamshire's enforcement campaign of the fatal 4. This also bucks historical trends that traditionally show RTC uplifts in May and throughout the summer period. Operation Drosometer 5 will continue until the end of August 2015. So far over 3000 drivers have been caught for fatal 4 offences. The June drink drive campaign has not seen an uplift in arrests for drink driving which show parity with normal ambient levels of activity.</p>
		b) Monitor KSIs for 0-15 year olds	-65.3%	●	
7	The number of non-crime related mental health patients detained in custody suites	A reduction in the number of non-crime related mental health patients detained in custody suites	-86.5%	●	<p>There were 32 less people with mental health related illnesses presented to custody as a first place of safety year-to-date. Overall, there was a 33.9% reduction in the number of mental health patient detainees in custody and s136 suites. This is a direct result of the introduction of the Street Triage Team.</p>

STRATEGIC PRIORITY THEME 3: Focus on those priority crime types and local areas that are most affected by crime and anti-social behaviour							
Measure		Objective / Target	Performance		Short / Long Term Trend		Insight
1	Reduction in All Crime across the force	a) A reduction in All Crime compared to 2014-15	+8.3%	●	△	▲	There were 1,488 <b>additional offences</b> of All Crime recorded in 2015-16 compared to the previous financial year. The majority of this increase was recorded on County Division (1,296 offences, +12.9%) and were predominantly related to Violence (1,119 offences, +28.7% force-wide). Year-to-date increases mask strong reductions in Burglary Other (-57 offences); Burglary Dwelling (-128 offences; Bicycle Theft (-40 offences); and, Robberies (-55 offences). Changes to the counting rules, 24 hour interventions and new offence types such as Malicious Communications are thought to be the main drivers of the increases recorded so far this year.
		b) A reduction in Victim-Based Crime compared to 2014-15	+9.4%	●	△	▲	Victim-Based crimes accounts for 89.8% of All Crime recorded by the Force, which is the slightly higher than the proportion recorded last year. Again, <b>County</b> division recorded the <b>larger increase</b> (14.9%, or 1,342 offences).
		c) To monitor the number of offences in those local areas which experience a high level of crime	City +21%	●	△	▲	Both County and City Divisions are showing an <b>increase in All Crime</b> in those areas identified to experience high levels of crime. Given the performance reported in April (County +8%, City -3%); it appears that May and June's performance has driven the increases.
			County +17%	●	△	▲	
d) To monitor the proportion of rural crime compared to 2014-15					<b>This is a new target and will require development through a small project group. To be reported in Quarter 3 and 4 of 2015-16.</b>		
2	Reduction in Anti-Social Behaviour (ASB) incidents across	Long-term target of 50% reduction by end of 2015-2016	-7.1%	●	▽	▼	Despite there being month-on-month increases recorded since March, the trajectory is at a lower level than in the

the force	(compared to 2011-12 baseline)					previous year, and appears in-line with normal seasonal variation.

Measure		Objective / Target	Performance	Short / Long Term Trend		Insight	
3	The detection rate (including Positive Outcomes) for Victim-Based Crimes	a) An increase in the detection rate for Victim-Based Crime	-5.1%	●	▼	▼	There were 503 <b>fewer</b> detections for Victim-Based Crime year-to-date than in the previous year; however as seen in previous months higher numbers of detections awaiting approval mean that when the figures are refreshed next month, there should be an improvement.
		b) To monitor the proportion of Community Resolution disposals	15.0%	●	▼	▼	Whilst the proportion of Community Resolution disposals has fallen when compared to the previous year (from 17.7%) the volume has <b>fallen by 30.0%</b> or 300 disposals which is at a greater rate than the fall in overall detections
		c) To monitor the detection rate for All Crime	-7.5%	●	▼	▼	<b>New target for 2015-16:</b> The detection rate for All Crime fell from 31.4% last year to 24.0%; this should improve when the 382 detections awaiting approval are added (26.0%). Previous analysis has suggested falling numbers of arrests may have impacted directly on overall detections, but changes to the counting rules, 24 hour interventions and new offence classifications may also be contributory factors.
1	The number of Alcohol-Related Crimes	a) To monitor the number of crimes and ASB incidents which appear to be Alcohol-Related	Crime 12.9% ASB 14.5%				It is estimated that around 14% of All Crime and ASB is Alcohol-Related. The reported changes in Alcohol-Related Crime appear to have fallen, due to lower levels month-to-date. Whilst Alcohol-Related ASB also appears out of kilter with overall ASB performance by showing an increase.
		b) To monitor the proportion of Alcohol-Related Violence	20.2%				The proportion of Alcohol-Related Violence appears to be falling and is less than half that estimated nationally.
		To monitor the number of violent crimes which appear to be Alcohol-Related in the NTE	Crime +9.4%				<b>New target for 2015-16</b> There were 41 additional night-time economy violence against the person offences recorded year-to-date compared to the previous year

				following high volumes recorded during November and December.

In comparison there was a considerable <b>reduction</b> in possession offences, which could be attributable to the increased numbers of supply offences whereby an arrest and disposal would be expected.
4	The number of Cyber Crimes	To monitor the number of Cyber Crimes in 2015-16 to establish a baseline	376		<b>New target for 2015-16</b> Based on the search used for the Home Office Annual Data Return for Cyber Crime, 2.0% of All Crime year-to-date was classed as Cyber Crime. STRATEGIC PRIORITY THEME 7: Spend Your Money Wisely					
Measure		Objective / Target	Performance		Insight
1	Make efficiency savings	To make £11.0m saving by March 2016	-£0.6m	●	The Government's grant has reduced significantly and in order to balance the budget, savings of £11.0m need to be made in 2015-16. To date £0.753m efficiencies have been achieved against a target of £1.349m.
